MISPLACED AFFECTION. -The Springfield (Mass.) Republican details a romantic story of a young man who " fell desperately in love ' or woman who falls in love, does it "desperately") with picture of a girl on a bank-bill, and at once opened a thrilling correspondence with the bankers, photographists and engravers, to find out the name and residence of the original. The artists could not tell him anything about her. The banker wrote that he had an indistinct recollection | brought out that the young lady became frightened by an alarm of fire some time ago, jumped out of a and it is likely that those lone and last imfrom since.

CHAPTER II.

She stood beside the wash tub, with her red hands in the sads, and at her slipshod feet there lay a pile of dirty duds; her husband stood beside her-the crossest man alive -the last was twenty-nine years old, the first was twenty-five.

The beavy wash was over, and the clothes hung out to dry-and Tom had stuck his finger in the dirty baby's eye. Tom had been spanked and supper made upon a crust of bread, and then the bride and bridegroom went grumbling to bed.

POCKET-CHANGE STOLEN .- The Mexicans are a great set of rascals. One of them, Gen. R. BLES, a friend of MIRAMON, recently seized \$5,000,000, which was being sent from the City of Mexico to Vera Cruz. One third of it belonged to Americans, the rest to Europeans. There will probably be a row kicked gp before the thing is done with; but if ROBLES will divide honorably with us, we'll say no more about it.

One of the Savannah editors, confound him, tells a hard yarn on Brown-of course you know BROWN. He says BROWN was tipsy the other night, when it become his duty, at a proper stage of the proceedings, to give the regular toast to woman, for he said so afterwards. He proceeded :

" Ob Woman ! in our hours of ease, Uncertain, coy and hard to please-But-but-seen too olt, familiar with her face, We first endure, then pity, then embrace."

New Music.-W. W. Fospick, poet, and W C. Perens. composer, have brought out a new piece of music entitled "Let me kiss him for his Mother." Just as they please, of course; but for our part, we'd rather kiss him for his sister-that is to say, we'd rather kiss his sister for bim.

THE popularity of the 3 exican Mustan Liniment is co-extensive with the civilizat the globe. Other articles claim to allreigte pain and distress-this cures. Family Physicians, Government Hospitals, Farriers, Planters, Farmers, Liverymen, &c, have practically demonstrated this fact throughout the world. No article ever before received such undivided praise and support from Med-

pests of the vermin kind. The importance of a reliable article of this kind is estimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead. This fact was made use of to goard their night camps from these intruders. Quantities of the plant were brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters l'atent have been obtained from the governments of England, France, Germany and Russia, from the World's Fair, and numerous medial and horticultural colleges and societies.
